

Online webinar, January 25<sup>th</sup> or 26<sup>th</sup>, 2021, 6:00 – 7:00 PM, Berlin time (CET)

## Introduction to the TEACH learning platform

The new online learning platform TEACH provides a dedicated, specialized training program on the functional analysis of the locomotor system. It is particularly relevant for teachers and students in Medicine, Nursing, Physiotherapy and Occupational Therapy.

The TEACH platform consists of 4 major modules:

- Biomechanic foundations of the locomotor system
- Functional evaluation: concept and methodology
- Biomechanics of spine
- Biomechanics of gait

The TEACH platform is launched in an English language version, followed by a German, Polish and Spanish language versions.

The online webinar is to introduce the TEACH online platform and the corresponding Erasmus+ project. A similar webinar will be given on Monday 25<sup>th</sup> or Tuesday 26<sup>th</sup>.

The agenda of the webinar is:

### 1. Welcome and moderation

*Prof. Dr. Harm Peters, Charité Berlin, Germany, and Association of Medical Schools in Europe*

### 2. The TEACH project: needs, aims and timeline

*Dr. Joanna Bartnicka, Silesian University of Technology, Poland*

### 3. The TEACH platform: content and functionalities

*Cristina Herrera Ligeró, Instituto de Biomecánica de Valencia, Spain*

The webinar will take place via ZOOM. The ZOOM link will be provided following registration. To register use the following link <https://dsfz-online.charite.de/teach/>
